EMELIN FLORES

SKILLS

Risk Management | Compliance Analysis | Database Management | Market Research | Python | Java | Adobe Photoshop & Premiere Pro & XD | Product Management

OBJECTIVE

A cybersecurity and product management student looking for opportunities to expand my knowledge on securing our digital environments. Collaborative, reliable, and motivated to create the best solutions to secure our information systems based on human centered design.

EXPERIENCE

Security Solutions Intern | Cisco | 05/19-Present
Help clients understand complex security needs by identifying challenges, risks, and vulnerabilities in technology, people and processes.

Data Analyst Intern | NJ Tech Council | 01/19-04/19
Analyzed data to predict success of multiple events to secure board approval/funding for future events involving Women in tech and venture conferences.

Webmaster | Vintage Vinyl Records | 05/18-05/19
Lead developer and IT infrastructure engineer overseeing website development, PCI compliance, and technological advancements.
